RE: *Crawford County Planning Commission Review of the Crawford County Renewable Energy, LLC Land Development*

Dear Maxine,

At its regularly scheduled December Meeting, the Crawford County Planning Commission reviewed the above captioned land development proposal and resolved to forward the following comments to the Township and interested parties. Specifically:

1. The Crawford County Planning Commission recognizes that this development proposal, as understood by the Commission, represents an ambitious high profile undertaking by the Development Team that, if constructed, would represent the largest single capital project undertaken at one time in the history of Crawford County. To that end, a summary of the various permits and/or permitting processes that inform the overall approval process for this facility include:
 - Application for Review of NPDES Permit and/or E&S Control Plan.
 - Application for Notice of Intent (NOI) NPDES Permit.
 - Application Checklist and Land Use Information Questionnaire.
 - General Information Form.
 - ACT 14 Notifications (County and Municipal).
 - Pennsylvania Natural Diversity Inventory (PNDI) Project Environmental Review and Clearance Letters.
 - Cultural Resource Notice and Pennsylvania Historic and Museum Commission Review.
 - Erosion and Sedimentation Control Plan & Drawings.
 - Post-Construction Stormwater Management Plan & Drawings.
 - Stormwater Management Plan.
